📍 Delhi, India

PROFILE SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Skilled in developing responsive UIs, integrating RESTful APIs, and implementing full-cycle features from frontend to backend. Passionate about creating efficient, user-centric solutions.

TECHNICAL SKILLS

Frontend & UI: React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design

Backend & Database: Node.js, Express.js, MongoDB, MySQL

Tools & Platforms: Git & GitHub, VS Code, REST APIs, Postman

Other: Python (basic), API Integration, CRUD Operations, Authentication Systems

PROJECTS

E-commerce Website (MERN Stack) — 2024–2025

- Built a full-stack e-commerce platform with MongoDB, Express, React, and Node.js featuring product listings, shopping cart, and checkout functionality.
- Implemented user authentication, product filtering, and dynamic cart management with real-time updates.
- Designed responsive UI components for seamless multi-device experience.
- GitHub: github.com/Neeraj-Dhyani/React_Ecommerce

Instagram Backend Clone — 2024–2025

- Developed RESTful API backend replicating core Instagram features including user authentication, posts, likes, and comments using Node.js, Express, and MongoDB.
- Implemented JWT-based authentication and authorization for secure user sessions.
- Optimized database queries for efficient data retrieval and storage.
- GitHub: github.com/Neeraj-Dhyani/Backend_Insta

Employee Management System — 2024–2025

- Created a full-featured CRUD application with Node.js, Express, and MongoDB for managing employee records.

- Built RESTful API endpoints for create, read, update, and delete operations with data validation.
- Implemented error handling and input sanitization for enhanced security. GitHub: [Git-Git-Git-git](#)
- GitHub: github.com/Neeraj-Dhyani/Backend_Employee-Management-System

Weather App — 2024

- Developed an interactive weather application using HTML, CSS, and JavaScript with external weather API integration.
- Implemented real-time weather data fetching with dynamic UI updates based on location.
- GitHub: github.com/Neeraj-Dhyani/Dom_Weather-App

Recipe Finder App — 2024

- Built a responsive recipe search application using React with third-party API integration. Created
- reusable React components with state management for search and filtering functionality. GitHub:
- GitHub: github.com/Neeraj-Dhyani/React_Recipe

Satellite Tracker — 2024

- Developed real-time satellite tracking application using JavaScript and mapping APIs.
- Implemented dynamic visualization of satellite positions with live data updates.
- GitHub: github.com/Neeraj-Dhyani/Dom_Setallite-Tracker

EDUCATION

Full Stack Development Course — Dice Academy (2024–2025)

Bachelor of Arts Programme — Delhi University (Pursuing)

Class 12th — CBSE Board (2022-2023)

Class 10th — CBSE Board (2020-2021)

ADDITIONAL INFORMATION

- Actively seeking internship or entry-level opportunities in full-stack development
- Strong problem-solving skills with focus on clean, maintainable code
- Quick learner with ability to adapt to new technologies and frameworks
